Dear Friends:

Thank you for the great help you are to us each month! On July 20th, the current Sea Hawks graduated from a year of selfless service to people in need!

What an awesome team they are and we pray great blessings on them as they move forward with the Lord.

We are very blessed that Lauren and Sarah are staying with us for a second year and moving into leadership roles. We look forward to welcoming the new class on August 5th.

Friend Ships

We are making good progress on ship repairs aboard Pelican's Nest. StoreHouse One continues to grow and thrive, distributing food every day, in Southern California and SouthWest Louisiana to organizations helping people in need and to needy families.

We were so blessed this month to have the help of several groups and individuals who worked aboard ship, in the greenhouse, the warehouse and the food program.

As we go to print, the team in Israel is getting ready for a tight security situation as tensions have intensified. They continue to meet many diverse needs including working with local organizations who are providing food and commodities to those in those in need. They are also helping the city of Sderot keep streets and landscaping clean as they await the end of the war and the return of more residents.

In addition to the regular donations of food and household goods, we have been richly blessed with donations of so many things including a nice new crane, rolls of vinyl for disaster relief, light bulbs for Pelican's Nest and soil to replant our trees. Thank you so much for your support as together we accomplish the work of the Lord!

Thank you! Because of people like you who volunteer, give finances or material goods, we are able to provide critical services to people in need. Because of those who pray for us, we see God's hand in every move we make. You are our support team and we could not do it without your help.
