

Friend Ships

September 2025 Activities Report

Dear Friends of Friend Ships:

Thank you for the amazing support you provide each month. It is our joy to share what the Lord has been able to accomplish.

The Syrian Health Center is doing great. We had a doctor in the camp and via telemedicine along with an additional nurse who came in for the month. We prepared for a dental team and pediatrician to arrive in early October while our pharmacy continued to fill prescriptions.

We have been following up on requests to serve with us in Syria that we received from the airing of the TBN Boots on the Ground show about our work in the camp.

The children stream in daily to build lego structures and enjoy the playground. We started to teach English and math classes and it is encouraging to see that most of the children are actually more interested in learning than in playing. We set up a new tent for a men's dorm and distributed food and clothing to the community. Two men in leadership at the Lake Charles Trinity Baptist

Church came in for a week to work with us and check out opportunities for their congregation. They were a huge help. Two of our regular boys were seriously injured when explosives left over from the war detonated. Much prayer went up for these precious little guys and praise God, they are recovering completely. We are working now

on expanding our operations in Syria.

Please pray for additional medical staff and general workers for the camp in Syria. We have an awesome opportunity and it is a moment in time to be there with the love of the Lord.

At home base, Port Mercy, we were busy with daily pickups and distributions of food and household supplies. We also hosted two wonderful teams to help us with the grounds and to prepare for our 40 year anniversary celebration on October 3-4. We were blessed to obtain a new, beautiful rescue truck for Disaster Relief and we have been doing many repairs to our trucks and other equipment.

If you would like to view the video we put together for the 40 year celebration with highlights from the first 40 years of Friend Ships, go to
