June 2026 Activities Report

Dear Friends:

Thank you for your wonderful help to Friend Ships in so many important ways.

We continue to prepare for the hurricane season that started June 1st, both here in the US and in this hemisphere. The Friend Ships Port Mercy Team is making good progress on reactivating our ship Mersea and on repairs to supporting disaster relief equipment. We plan to concentrate our Disaster Relief response on food service, communications support, tarp distribution and of course, spiritual support/ministry.

This summer, we have been continually blessed with work teams coming to help. They are always such a gift!

We have continued to provide medical care and other services at Friend Ships Health Center in Syria throughout most of June. Now, because of the war, we are taking a break for a month or more until airlines resume flights and volunteers are once again comfortable traveling to

Friend Ships

the region. We are looking forward to returning to operation full force as soon as possible. And we have been asked to oversee another Syrian medical facility that provides services to minority communities. They would like us to bring in international medical personnel who can work with and train the Syrian providers. We are considering if this is something the Lord has for us to do. Please pray for guidance on this important issue.

Here at Port Mercy, we have been blessed with a wonderful refrigerated truck for our food distribution in Southwest Louisiana. It will be great to keep food fresh in these very hot summer days! We were also able to obtain a Cessna 210 airplane for use in medical and disaster relief operations AND a beautiful new , much needed warehouse at Port Mercy! God is so good!

Thank you again for joining with us to advance the work of the Kingdom. We are eternally grateful.

"May God himself, the God of peace, sanctify you through and through. May your whole spirit, soul and body be kept blameless at the coming of our Lord Jesus Christ." 1 Thessalonians 5:12
